### WHAT IS THE LAUNCH?

Join us at the European launch of a new global advocacy campaign to put health at the heart of climate change negotiations.

Starting HEAL's Annual General Meeting, over 30 European and national health groups will hand a giant Prescription for a Healthy Planet to the EU Health Commissioner, Androulla Vassiliou.

The prescription contains a set of policy recommendations to EU and global negotiators meeting in Bangkok and in the run-up to the Copenhagen deal.

### WHY DO YOU NEED TO BE THERE?

Because the presentation of the Prescription will be followed by lively debate with the Commissioner and MEPs on how the health and medical perspective can be integrated into discussions in climate change meetings in Copenhagen in December 2009 and beyond.

This will be followed by an organic, climate-friendly lunch.
