

## Health & Environment Alliance

### Call for Tenders – Environmental Health Science and Policy Consultant

The Health & Environment Alliance (HEAL) is looking for an experienced Environmental Health Science and Policy Consultant to support HEAL's work on the health and environmental impacts of per- and polyfluoroalkyl substances (PFAS) under the strategic leadership of the Health and Chemicals Programme Lead.

#### About HEAL

*HEAL is a leading European not-for-profit organisation addressing how the environment affects health in the European Union. Our alliance brings together over 90 member organisations, representing health professionals, not-for-profit health insurers, doctors, nurses, cancer and asthma groups, citizens, women's groups, youth groups, environmental NGOs, scientists and public health institutes. Members include international and Europe-wide organisations, as well as national and local groups.*

#### Project

Under the strategic leadership of the Health and Chemical Programme Lead, the Consultant will be responsible for:

- Drafting and finalising a report on the health and environmental impacts of PFAS for public release and use, building upon the scoping report that HEAL completed in 2021 to document the impacts of PFAS on local communities around Europe
- Developing HEAL's interactive webpage on the health and environmental impacts of PFAS
- Supporting HEAL in developing relevant technical and scientific input in the context of the upcoming restriction process of PFAS at the European Chemicals Agency (ECHA).

The framework contract will be awarded for work carried out between June and December 2022. We estimate that the project will require approximately 6 days of work per month.

#### Applications

To submit your application, please send your CV and cover letter to Stefan Grand-Meyer, Head of Human Resources, email: [stefan@env-health.org](mailto:stefan@env-health.org), in an email with the subject heading: "Tender – Environmental Health Science and Policy Consultant". Please specify your fee for the project, including VAT if applicable. **Applications close on Monday 30 May, COB.**
